

June 17, 2015

Dear Sir/Madam,

We have received your request for Safety Data Sheets (SDS) for the products that you purchase from Covidien listed below:

-Wabasha TENS Electrode products

Please be advised that the products in question are not required to have SDSs for the following reasons. If a product does not contain hazardous substances, or the product meets the “article” definition as detailed in the current Occupational, Health, and Safety Administration (OSHA) Hazard Communication regulation (29 CFR 1910.1200), **it is not required to have an SDS.**

In addition, to be considered a hazardous substance (and therefore require an SDS), a product must have shown statistically significant evidence, based on at least one study conducted in accordance with established scientific principles, that acute or chronic health effects may occur in employees exposed to the substance, and/or present a significant physical hazard.

If you should have any further questions on the above product, please do not hesitate to contact us at (508) 261-8000.

Sincerely,  
Covidien

Chris Pizarro  
Principal Safety Engineer
